## Tulip road book route examples

Left hand is the milage counting up. The small box within is the distance to the next junction. A Green box means the next junction comes up very quickly.

The middle 'tulip' is the way to turn on the road. You are coming from the bottom and you follow the arrow. If there is no tulip for a junction it means to stick to the same road you are on or follow the road.

On the right hand side is some helpful signs that you should see at the corner. GPS details are on each corner
